Sustainability and the Food System

Local Comprehensive & Sustainability Plans

- Traditional Comprehensive Plan
 - Housing
 - Transportation
 - Land use
 - Economic development
- Sustainable Comprehensive Plan and Sustainability Plan
 - Green infrastructure
 - Climate protection
 - Environmental justice
 - Social equity
 - Public and community health
 - Food systems

Session Objectives

1. Provide an overview of the strategies used to develop and adopt food system planning elements of comprehensive and sustainability plans.
2. Examine the role of governmental and nongovernmental partnerships in the local and regional food systems planning process.
3. Explore the impact of these plans on economic, environmental, and social sustainability policies and regulations in each community.

Speakers

- **Erin MacDougall, PhD**
 - Healthy Eating & Active Living Program Manager, Public Health – Seattle & King County
- **Alex Hinds**
