Concurrent Breakouts, Implementation Workshops and Trainings

TRACK	THURSDAY [p.12-15] 9:00-10:30 am	THURSDAY [p.15-19] 10:45 am-12:15 pm	THURSDAY [p.20-23] 1:30-3:00 pm & * 1:30-5:00	THURSDAY [p.24-26] 3:15-5:15 pm
Climate Change	Climate-Positive Planning: Two Regional Case Studies	Models for Adapting to Climate Change Impacts	*Measuring Greenhouse Gas Emissions: A Survey and Demonstration of Tools	
Communication and Tools		Sustainability 2.0 – Best Practices in Retrofitting Cities Communities, Neighborhoods	Getting to Walkability: Walk Score for Planners and the Public	
Equitable Development / Green Economy	Talking about Race and Smart Growth	Bringing an Equity Focus to Smart Growth by Engaging Marginalized Populations	Civil Rights Groups and the Smart Growth Movement	
Health	Newest Research on Built Environment and Health	What Ever's to Happen with Baby Boom?	Innovations in Healthy Food Planning Practice	
Housing and Green Building	Evidence from Leading Green Affordable Communities			Smart Housing Choices in a Changing Environment
Infrastructure	Navigating the VMT Curve: Emerging Trends & Implications			Sustainable Streets: Concepts, Metrics, Tools
Implementing Smart Growth	Smart Growth 101 ----- Getting to Small Footprint Densities and Building Types	No Silver Bullet: A Multi-pronged Approach to Smart Growth Implementation		Corridor Development Initiative: Who Says Smart Growth Can't Be Fun?
Land Preservation		TDR in Puget Sound Region		
Leadership and Partners	Achieving a Greener Greater Philadelphia through Public-Private Partnerships		Strange Bedfellows: Building Smart Growth Partnerships among Diverse Groups ----- *The American Recovery & Reinvestment Act: Leverage Smart & Equitable Outcomes	Regional Leadership in Smart Growth and Sustainability
Real Estate Development	Tax Incentives and Smart Growth			Market Acceptance of Smart Growth
Schools and Institutions		Safe Routes to Schools: Early Outcomes and Future Benefits	*Supporting Community-Centered Schools for All	
Small Cities and Rural Areas	Envisioning & Implementing Smart Growth in Small Towns and Rural Communities	Rural Roundup: Showcasing How Rural Communities Are Part of Smart Growth Solution	Smart Transportation for Small Towns: Bridging the Gap in Rural Areas	
Transportation	Passenger Rail and TOD: State and Local Collaboration in Virginia	Building Transportation Partnerships, Opportunities & Policy from the Grassroots Up ----- Sustainability in Transportation ----- Value Capture: Innovations in Transportation Finance	*Transit-Oriented Development: Cutting-Edge Case Studies	Wheel Urbanism: Bicycling's Innovative Contributions
Water and Coastal Areas			Puget Sound's Best Hope: Integrating Market-based Strategies, Watershed Assessments & Local Zoning	Moving from Watershed to Site: Green Infrastructure & Low Impact Development

Concurrent Breakouts and Implementation Workshops

TRACK	FRIDAY 10:15-11:45 am [p.27-31]	FRIDAY 1:45-3:15 pm [p.31-35]	FRIDAY 3:30-5:30 pm [p.35-40]
Climate Change	Implementing State Climate Action Plans	Smart Growth on the Coast: Addressing Impacts of Climate Change through Smart Growth	Community Energy and Climate Action Planning: From Process to Implementation to Outcomes
Communication and Tools	Sustainable Return on Investment: Measuring the Triple Bottom Line		Shifting Attitudes on Sustainability & Climate Change: Civic Engagement Strategies
Equitable Development / Green Economy	Smart Growth and Tribes	Regional Organizing and Environmental Justice ----- Carrying Out Smart Growth Projects in the Current Economic Climate	Equitable Development in Asian Communities
Health	Healthy Communities by Design: Models for State Public Health	Implementing the City of Richmond's Health Element ----- The Next Big Trend: Sustainability and the Food System	Change the Approach, Change the System: Collaborating across Sectors
Housing and Green Building			The Foreclosure Crisis: A Fresh Look at Best Practices, Building Sustainable Solutions, and Assessing Impacts
Infrastructure		Beyond Design: How to Plan for Infrastructure to Support Smart Growth	Integrating Green Infrastructure into the City: From Planning to Best Practices
Implementing Smart Growth	Post-Disaster Planning for Recovery and Resilience	Sustainable Visions: Developing a Coordinated Approach toward Sustainability in Connecticut's Capitol Region	Achieving Successful Community Transformation: Three Scales, Three Approaches and Common Lessons ----- Walkability as the Policy Foundation for Health, Environment and Community Building Goals ----- Making Form-Based Codes the Rule, Not the Exception
Land Preservation		Connecting Communities with Green Infrastructure Planning	
Leadership and Partners	There's No Better Time for Collaboration: Convergence for Healthy People and Healthy Places	Beyond Clean Cars and Fuels: Transportation & Land-Use Planning in a Carbon-Constrained World	
Real Estate Development	Funding and Smart Growth 2010: Funding Realities Moving Forward		Retrofitting the Suburban Landscape: Challenges, Opportunities, Design
Schools and Institutions	A New Lease on Life: Transforming Surplus Schools into Thriving Community Centers	Sustainability as a National Security Imperative	
Small Cities and Rural Areas	Bridging the Gap: Regional Approaches to Sensible Land Use Planning	Small Town Sustainability: Comparing Sustainability Initiatives from the U.S. and Europe	
Transportation	Equity and Environmental Protection in Transit-Oriented Communities		Joining the Fight: How Smart Growth Advocates Can Play a Key Role in Federal Transportation Reauthorization
Water and Coastal Areas	What's the Next Frontier for Stormwater Management?		

Concurrent Breakouts and Implementation Workshops

TRACK	SATURDAY 10:15 am-12:15 pm [p.41-45]	SATURDAY 1:45-3:15 pm [p.45-48]
Climate Change	New Challenges Require New Tools: Innovative Approaches to Achieve Climate Stabilization	Smart Growth, Smart Economics: Cost Saving Ways to Reduce Greenhouse Gas Emissions
Communication and Tools	The Role of Technology and Visualization in Collaborative Decision Making	
Equitable Development / Green Economy	Equity in the Suburbs ----- Reinvestment in People, Infrastructure and Industry – A Green Economy Growth Model	Remaking Older Cities, Reimagining Metro Areas
Health		Take Action: Building Political Will to Reduce Childhood Obesity
Housing and Green Building	Green Preservation: Preserving Affordable Housing for Sustainable Communities	
Infrastructure		
Implementing Smart Growth	New Directions in Rating Systems for Sustainability: The Sustainable Sites Initiative and Applying LEED-ND to Existing Neighborhoods ----- The Dollars and Sense of Sustainable Zoning Codes	Smart Growth Technical Assistance: New Opportunities for Implementation ----- Envisioning and Creating Sustainable Metropolitan Regions
Land Preservation	Prioritizing Green Space: Land Use Strategies for Cities	
Leadership and Partners		Public/Private Partnerships as a Key to Implementing Smart Growth
Real Estate Development	Building Bridges Between the Sun Belt and the Rust Belt: Emerging Strategies to Reclaim Vacant Properties and Foreclosed Homes	Sustainable Redevelopment of Brownfields: Taking Land Reuse to the Next Level
Schools and Institutions		
Small Cities and Rural Areas		Strategic Landscape Conservation: Working Landscapes, Rural Economies and Climate Change
Transportation	The Complete Guide to Complete Streets	What to Do with Streets if They Really Need to be Highways
Water and Coastal Areas		Getting It Right: Connecting Housing, Community Development, Water and Sustainable Neighborhoods
