Community
Benefits and
Community
Building
spending

Prevention and Social Determinants of Health

What Impacts Community Health?

```
Healthcare Spending # Improved Health
Length and Quality of Life = 20%

Social Determinants of Health = 50%
```

Health Care Spending MUST Integrate with Smart Growth Planning

Downstream problems

Upstream solutions

- Obesity rates
- Depression and social isolation
- Asthma
- Chronic lead poisoning
- Secondhand Smoke exposure
- Access to healthy foods
- Safe and walkable streets
- Reduced air pollution
- Improved housing conditions and safe renovations

Community-Building Categories

Community
-building
Categories

- Physical improvements and housing
- Economic development
- Community support
- Environmental improvements
- Leadership development and training for community members
- Coalition-building
- Community health improvement advocacy
- Workforce development

Implementation Plans

Community Benefits Planning

IRS Reporting:
Part 1- Community Health
Improvements
Part 2 – Community
Building

The Challenges

Getting buy-in from the hospital as an organization

Getting a place at the table

Obtaining the right data

Implementing smart growth concepts that meet the community needs identified in the CHNA

Sustaining collaborations after the CHNA is adopted
