The 2017 New Partners Conference is heading back to the Midwest — to St. Louis, the Gateway City. The nation’s largest smart growth and sustainability event, the theme for New Partners 2017 is “Practical Tools and Innovative Strategies for Creating Great Communities,” underscoring this year’s stronger emphasis on implementation tools, strategies and new technologies that will help communities become more resilient NOW.

A significant factor in this event’s tremendous success is its appeal to so many different disciplines. The conference draws a national audience of:

+ Local policymakers and city/county staff
+ State and federal agency leaders
+ Professionals in planning, transportation, landscape architecture, architecture, housing, parks and recreation, public health, public works, engineering, crime prevention and the arts
+ Realtors, developers, builders and bankers
+ Advocates for equity and environmental justice, youth, older adults, and walking and biking
+ Labor representatives
+ School leaders and staff
+ Environmentalists

This event will bring together a diverse, multi-disciplinary audience from across the country.

Attendance at recent venues:
Attendance of all four of the previous New Partners conferences — in Portland, Baltimore, Denver and Kansas City — have exceeded 1,200 participants.

In St. Louis, we expect participants will represent:
+ 80% public sector and nonprofits
+ 20% private sector
+ 30% from East Coast U.S.
+ 40% from Midwest and Southern U.S.
+ 30% from West Coast U.S.

“We are a conference sponsor [since 2007] and send staff to the conference each year because this event is the premier conference to learn the latest information about smart growth and network with other agencies and communities who are leading the nation in projects and programs using smart growth principles. Each year I am amazed by what we learn from the conference and encouraged by the great stories and examples we are able to take back and apply to our communities.”
