

# Breakout Discussions

- Introduce yourself and a key climate-related project or challenge that you're seeking to address
- Discussion questions:
  - Did the presentation identify a new approach, activity or program that is relevant to your work? How might this approach or program be a good fit for you community?
  - Did the presentation highlight a new resource, partner or case study that might be useful to your work? How might you use this resource, partner or case study?
